

OPPORTUNITIES TO SERVE

July/2017

Country Focus: ***Argentina***

Argentina has about 1000 assemblies, and three missionary couples listed in the 2017 CMML/MSC Missionary Prayer Handbook.

Administrative: Team Leader for Timothy Institute in Salta, Argentina

The Lord's work at the Timothy Institute has yielded spiritual fruit, as graduates become adults and move into area assemblies and other Christian fellowship. The testimony of the school is strong both academically and spiritually.

The school staff includes principals of the elementary and high school divisions. It functions in two shifts: Kindergarten and Elementary School in the morning and Grades 8-12 in the afternoon. All the members of our staff are believers from a number of different Christian fellowships.

Enrollment is at full capacity (around 365). This year the school is celebrating its 25th Anniversary and is planning the tenth High School graduation in December. Government-administered tests have scored our school at the highest possible level in the three times we were tested: 2010, 2013 and 2016. We have a wonderful "school culture"; it is evident to visitors that the students are respectful and basically happy to be here.

We teach the Bible on a regular basis with total freedom and our students memorize large amounts of Scripture at all levels.

The present team leader, Doug Baergen, wants to serve the Lord in the school as long as He permits, but needs a younger man, a Christian educator, to work with him and eventually replace him as team leader. He would have to be a supported missionary since the school cannot support a worker on a U.S. or Canadian pay-scale. Official teaching and administrative positions require Argentinian teaching certificates. **For more information:**
